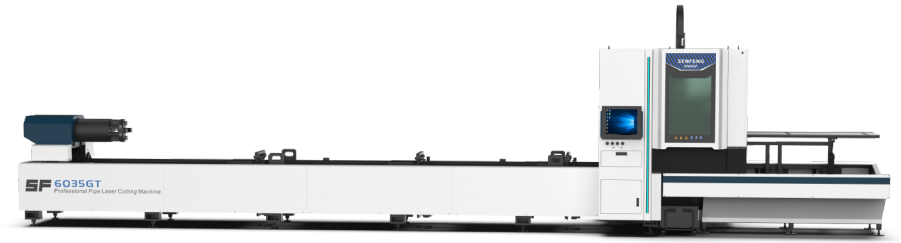
GT Series

Laser power: **3-6kW**
Tube size: **2.4-14.2 in**

- One-step beveling within ±45°
- Cut both conventional tubes and special-shaped pipes
- Two self-centering chucks for ultra-short tailing
- Follow-up support to prevent low precision caused by tube sagging
- Turning plates as unloading device, used to separate scraps from finished tubes automatically



Model	GT Series
Laser Power (kW)	3-6
Max Length of Tube (in)	236.2
Scope of Tube Size (in)	Round tube: Φ2.4~14.2 Square tube: □2.4*2.4~14.2*14.2
Max Weight of Tube (lb)	573.2-1102.3
X/Y-axis Positioning Accuracy (in)	±0.0020
X/Y-axis Repositioning Accuracy (in)	±0.0012
Max No-load Speed (in/min)	2362.2-3937
Max Rotating Speed of Chucks (r/min)	60-100
±45° Beveling	Yes
Tube Supports	Follow-up supports
Loading & Unloading Devices	Semi-/fully-automatic loading device (optional)/78.7 in long unloading device
Overall Dimensions (L*W*H, in)	401.6*89.8*99.6
