Arc Welding Machines

CMW Series

Robot arm span: 1077-1460mm
Robot load: 6-7kg

- Work with a collaborative robot to automate your welding process
- Very small in size for flexible man-machine collaboration
- Content-rich arc welding package with various processes like low-spatter welding
- Allow for welding a sea of complex-shaped workpieces
- Make on-site welding possible because of movable trolley and braking feature

CMW

Model	CMW
Robot armspan (mm)	1077-1460
Max load of robot (kg)	6-7
Arc welding machine	350A/500A
Wire feeding diameter (mm)	Φ0.8-1.6
Wire feeding speed (mm/min)	0.8-24
Mode of cooling	Air/water cooling
Power supply	380V±10%, 50Hz±1
