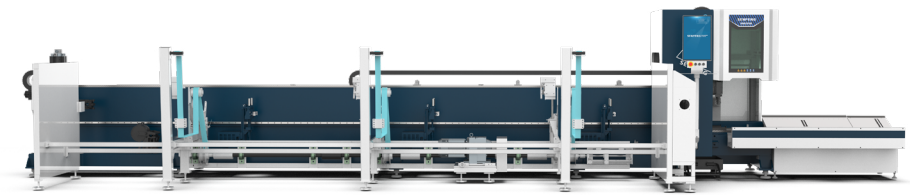
SENFENG

www.senfenglaserusa.com

PLUS Series

Laser power: **1.5-6kW**
Tube size: **0.59-9.1 in**

- Special for small tubes (0.59 in at minimum)
- Pioneer ultra-fast tube cutting technology, with 50% faster than others
- Follow-up supports used to avoid low precision caused by long tube sagging
- Side-attached machine body for high stability and carrying ability
- Work with semi-/fully-automatic loading & unloading devices



Model	PLUS Series
Laser Power (kW)	1.5-6
Max Length of Tube (in)	118.1-255.9
Scope of Tube Size (in)	Round tube: Φ0.59-9.1; square tube: □0.59*0.59-9.1*9.1
Max Weight of Tube (lb)	132.3-573.2
X/Y-axis Positioning Accuracy (in)	±0.0020
X/Y-axis Repositioning Accuracy (in)	±0.0008
Max No-load Speed (in/min)	3937-5905.5
Max Rotating Speed of Chucks (r/min)	100-240
Tube Supports	Follow-up supports
Loading & Unloading Devices	Semi-/fully-automatic loading & unloading device
Overall Dimensions (L*W*H, in)	145.7*70.1*94.9/358.3*87.8*90.6/358.3*87.8*90.6/366.9*122.0*98.4
